JOURNAL OF ELECTROANALYTICAL CHEMISTRY

# Subject index

Adsorption
Stable and reversible electrochemistry of cytochrome *c* on bare electrodes. Part II: Effects of experimental conditions (Szűcs, Novák) 47
Electrochemical quartz crystal microbalance: evidence for the adsorption of heteropoly and isopoly anions on gold electrodes (Keita et al.) 155
Au(111) electrode
Investigations of $Cl^-$ adsorption at the Au(111) electrode in the presence of underpotentially deposited copper atoms (Shi et al.) 171
Au(111) electrodes
Electrochemical quartz crystal microbalance study of copper adatoms on highly ordered Au(111) electrodes in sulfuric acid (Watanabe et al.) 191

Bare electrodes
Stable and reversible electrochemistry of cytochrome *c* on bare electrodes. Part II: Effects of experimental conditions (Szűcs, Novák) 47
Bilayer membranes
A lipid bilayer electrical device. Dramatic decrease in impedance of a electrode device coated with electrolyte-doped lipid films in air (Nakashima, Yamaguchi) 187
Bromide ion
Temperature dependence of bromide ion adsorption on silver single-crystal faces (Popov) 179

Capacitance model
A frequency-dependent capacitance model and analysis of the a.c. impedance of conducting polyaniline films (Aoki, Hayashi) 31
Catalyst-modified electrodes
Analysis of the cyclic voltammetric responses exhibited by electrodes modified with monolayers of catalysts in the absence and presence of substrates (Xie, Anson) 145
Catechols
Characterization and investigation of the electrocatalytic properties of poly-*p*-phenylene modified electrodes (Rubinson et al.) 19
Chemiluminescence
Electrochemical and electrogenerated chemiluminescence properties of tris(2,2′-bipyridine)ruthenium(II)-tridecanethiol derivative on ITO and gold electrodes (Sato, Uosaki) 57
$Cl^-$ ions
Investigations of $Cl^-$ adsorption at the Au(111) electrode in the presence of underpotentially deposited copper atoms (Shi et al.) 171
Copper
Effect of interfacial pH on the reduction of oxygen on copper in neutral $NaClO_4$ solution (King et al.) 105
Investigations of $Cl^-$ adsorption at the Au(111) electrode in the presence of underpotentially deposited copper atoms (Shi et al.) 171
Copper ad-atoms
Electrochemical quartz crystal microbalance study of copper adatoms on highly ordered Au(111) electrodes in sulfuric acid (Watanabe et al.) 191
Correction terms
The hanging-meniscus rotating disk (HMRD). Part 1. Dependence of hydrodynamic behavior on experimental variables (Villullas, Lopez Teijelo) 25
Corrosion
Effect of interfacial pH on the reduction of oxygen on copper in neutral $NaClO_4$ solution (King et al.) 105
Cyclic voltammetry
Voltammetry in gas phase environments (Fang, Leddy) 5
Analysis of the cyclic voltammetric responses exhibited by electrodes modified with monolayers of catalysts in the absence and presence of substrates (Xie, Anson) 145
Cytochrome
Stable and reversible electrochemistry of cytochrome *c* on bare electrodes. Part II: Effects of experimental conditions (Szűcs, Novák) 47

Echinochrome A
Redox properties of echinochrome A (Petrova et al.) 131
Electrical double layer
The electrical double layer at the interface between mercury and a polyether electrolyte. Part 2. The effect of varying the relative molar mass of the solvent (Bruce et al.) 85
Electroadsorption
Investigations of $Cl^-$ adsorption at the Au(111) electrode in the presence of underpotentially deposited copper atoms (Shi et al.) 171
Temperature dependence of bromide ion adsorption on silver single-crystal faces (Popov) 179
Electrocatalysis
Characterization and investigation of the electrocatalytic properties of poly-*p*-phenylene modified electrodes (Rubinson et al.) 19
Electrochemical quartz crystal microbalance
Electrochemical quartz crystal microbalance: evidence for the adsorption of heteropoly and isopoly anions on gold electrodes (Keita et al.) 155
Electrochemical quartz crystal microbalance study of copper adatoms on highly ordered Au(111) electrodes in sulfuric acid (Watanabe et al.) 191
Electrodimerization
Mechanism of electrodimerization of pyrimidine on mercury from acid solutions (Navarro et al.) 123
Electron transfer
Mechanism of electrodimerization of pyrimidine on mercury from acid solutions (Navarro et al.) 123
Electropolymerization
Synthesis of polyparaphenylene by electropolymerization in microemulsion medium—morphology and crystalline character (Tamil Selvan et al.) 183

Electrosynthesis
Potential controlled electrosynthesis of poly(thiophene-3-methanol): application of the two-dimensional layer-by-layer nucleation and growth model (Kontturi et al.) 67

Flame annealing
X-ray diffraction and electrochemical study on the oxidation of flame-annealed Au(100) single-crystal surfaces (Robinson, O'Grady) 139
Formamide
Ion transfer from water to mixtures of formamide and water studied by polarography at the electrolyte|solution dropping electrode (Suzuki) 77

Gold
Electrochemical and electrogenerated chemiluminescence properties of tris(2,2′-bipyridine)ruthenium(II)-tridecanethiol derivative on ITO and gold electrodes (Sato, Uosaki) 57
Gold electrodes
Electrochemical quartz crystal microbalance: evidence for the adsorption of heteropoly and isopoly anions on gold electrodes (Keita et al.) 155

Hanging-meniscus rotating disk
The hanging-meniscus rotating disk (HMRD). Part 1. Dependence of hydrodynamic behavior on experimental variables (Villullas, Lopez Teijelo) 25
Heteropoly anions
Electrochemical quartz crystal microbalance: evidence for the adsorption of heteropoly and isopoly anions on gold electrodes (Keita et al.) 155
Hydrodynamic effects
The hanging-meniscus rotating disk (HMRD). Part 1. Dependence of hydrodynamic behavior on experimental variables (Villullas, Lopez Teijelo) 25

Impedance
A frequency-dependent capacitance model and analysis of the a.c. impedance of conducting polyaniline films (Aoki, Hayashi) 31
A lipid bilayer electrical device. Dramatic decrease in impedance of a electrode device coated with electrolyte-doped lipid films in air (Nakashima, Yamaguchi) 187
Interfacial pH
Effect of interfacial pH on the reduction of oxygen on copper in neutral $NaClO_4$ solution (King et al.) 105
Ion transfer
Ion transfer from water to mixtures of formamide and water studied by polarography at the electrolyte|solution dropping electrode (Suzuki) 77
Isopoly anions
Electrochemical quartz crystal microbalance: evidence for the adsorption of heteropoly and isopoly anions on gold electrodes (Keita et al.) 155
ITIES
Ion transfer from water to mixtures of formamide and water studied by polarography at the electrolyte|solution dropping electrode (Suzuki) 77
ITO
Electrochemical and electrogenerated chemiluminescence properties of tris(2,2′-bipyridine)ruthenium(II)-tridecanethiol derivative on ITO and gold electrodes (Sato, Uosaki) 57

Kinetic model
A kinetic model for the potentiodynamic passivation of zinc in acids or concentrated salt solutions (Jansen, Beck) 93

Langevin equation
A frequency-dependent capacitance model and analysis of the a.c. impedance of conducting polyaniline films (Aoki, Hayashi) 31
Layer-by-layer deposition
Potential controlled electrosynthesis of poly(thiophene-3-methanol): application of the two-dimensional layer-by-layer nucleation and growth model (Kontturi et al.) 67
Lipids
A lipid bilayer electrical device. Dramatic decrease in impedance of a electrode device coated with electrolyte-doped lipid films in air (Nakashima, Yamaguchi) 187

Mercury
The electrical double layer at the interface between mercury and a polyether electrolyte. Part 2. The effect of varying the relative molar mass of the solvent (Bruce et al.) 85
Mercury electrodes
Mechanism of electrodimerization of pyrimidine on mercury from acid solutions (Navarro et al.) 123
Modified electrodes
Electrochemical and electrogenerated chemiluminescence properties of tris(2,2′-bipyridine)ruthenium(II)-tridecanethiol derivative on ITO and gold electrodes (Sato, Uosaki) 57

Oxidation
Direct observation of surface oxide formation and reduction on platinum clusters by time-resolved X-ray absorption spectroscopy (Allen et al.) 99
Oxygen reduction
Effect of interfacial pH on the reduction of oxygen on copper in neutral $NaClO_4$ solution (King et al.) 105

Passivation
A kinetic model for the potentiodynamic passivation of zinc in acids or concentrated salt solutions (Jansen, Beck) 93
Photosensitive groups
Electrochemical and electrogenerated chemiluminescence properties of tris(2,2′-bipyridine)ruthenium(II)-tridecanethiol derivative on ITO and gold electrodes (Sato, Uosaki) 57
Platinum
In-situ potential modulation difference diffraction studies of platinum in sulphuric acid using synchrotron X-ray radiation (Herron et al.) 39
Platinum clusters
Direct observation of surface oxide formation and reduction on platinum clusters by time-resolved X-ray absorption spectroscopy (Allen et al.) 99
Polarography
Ion transfer from water to mixtures of formamide and water studied by polarography at the electrolyte|solution dropping electrode (Suzuki) 77
Polyaniline
A frequency-dependent capacitance model and analysis of the a.c. impedance of conducting polyaniline films (Aoki, Hayashi) 31
Polyether electrolyte
The electrical double layer at the interface between mercury and a polyether electrolyte. Part 2. The effect of varying the relative molar mass of the solvent (Bruce et al.) 85
Polymer
Characterization and investigation of the electrocatalytic properties of poly-*p*-phenylene modified electrodes (Rubinson et al.) 19
Polyparaphenylene
Synthesis of polyparaphenylene by electropolymerization in microemulsion medium—morphology and crystalline character (Tamil Selvan et al.) 183

Polyphenylene
Characterization and investigation of the electrocatalytic properties of poly-*p*-phenylene modified electrodes (Rubinson et al.) 19
Poly(thiophene-3-methanol)
Potential controlled electrosynthesis of poly(thiophene-3-methanol): application of the two-dimensional layer-by-layer nucleation and growth model (Kontturi et al.) 67
Potential-modulation
In-situ potential modulation difference diffraction studies of platinum in sulphuric acid using synchrotron X-ray radiation (Herron et al.) 39
Pyrimidine
Mechanism of electrodimerization of pyrimidine on mercury from acid solutions (Navarro et al.) 123

Quasi-reversible surface redox reactions
Square-wave voltammetry of quasi-reversible surface redox reactions (Komorsky-Lovrić, Lovrić) 115

Redox properties
Redox properties of echinochrome A (Petrova et al.) 131
Reversible electrochemistry
Stable and reversible electrochemistry of cytochrome *c* on bare electrodes. Part II: Effects of experimental conditions (Szűcs, Novák) 47

Sensing
Characterization and investigation of the electrocatalytic properties of poly-*p*-phenylene modified electrodes (Rubinson et al.) 19
Silver single crystals
Temperature dependence of bromide ion adsorption on silver single-crystal faces (Popov) 179
Single-crystal electrochemistry
X-ray diffraction and electrochemical study on the oxidation of flame-annealed Au(100) single-crystal surfaces (Robinson, O'Grady) 139
Solvent effects
The electrical double layer at the interface between mercury and a polyether electrolyte. Part 2. The effect of varying the relative molar mass of the solvent (Bruce et al.) 85
solvent vapours
Voltammetry in gas phase environments (Fang, Leddy) 5
Square-wave voltammetry
Square-wave voltammetry of quasi-reversible surface redox reactions (Komorsky-Lovrić, Lovrić) 115
Substrates
Analysis of the cyclic voltammetric responses exhibited by electrodes modified with monolayers of catalysts in the absence and presence of substrates (Xie, Anson) 145
Surface chemistry
Direct observation of surface oxide formation and reduction on platinum clusters by time-resolved X-ray absorption spectroscopy (Allen et al.) 99
Surface structure
In-situ potential modulation difference diffraction studies of platinum in sulphuric acid using synchrotron X-ray radiation (Herron et al.) 39
X-ray diffraction and electrochemical study on the oxidation of flame-annealed Au(100) single-crystal surfaces (Robinson, O'Grady) 139
Synchrotron radiation
In-situ potential modulation difference diffraction studies of platinum in sulphuric acid using synchrotron X-ray radiation (Herron et al.) 39

Temperature effects
Temperature dependence of bromide ion adsorption on silver single-crystal faces (Popov) 179
Time-resolved X-ray absorption spectroscopy
Direct observation of surface oxide formation and reduction on platinum clusters by time-resolved X-ray absorption spectroscopy (Allen et al.) 99
Tris(2,2′-bipyridine)ruthenium(II)-tridecanethiol
Electrochemical and electrogenerated chemiluminescence properties of tris(2,2′-bipyridine)ruthenium(II)-tridecanethiol derivative on ITO and gold electrodes (Sato, Uosaki) 57

Underpotential deposition
Investigations of $Cl^-$ adsorption at the Au(111) electrode in the presence of underpotentially deposited copper atoms (Shi et al.) 171

Water
Ion transfer from water to mixtures of formamide and water studied by polarography at the electrolyte|solution dropping electrode (Suzuki) 77

X-ray diffraction
In-situ potential modulation difference diffraction studies of platinum in sulphuric acid using synchrotron X-ray radiation (Herron et al.) 39

Zinc
A kinetic model for the potentiodynamic passivation of zinc in acids or concentrated salt solutions (Jansen, Beck) 93
